QSL R1FJT (by Rolf,DL6ZFG): "DL6ZFG is NOT the QSL manager for R1FJT! I am managing only the QSL cards for the R1FJ expedition of March 2004! All R1FJT QSOs of 2006 and later are handled by UA4RC. Super Check Partial Database -- New e-mail address for submitting logs

I'm taking over the administration of the Super Check Partial database from Randy, K5ZD. Thank you, Randy, for providing the contesting community with top notch support of the SCP database over the last few years.

Randy recently established a dedicated web site for SCP (www.supercheckpartial.com/). As part of this transition, we've now set up a new email address for receiving logs, logs at supercheckpartial.com. As always, the easiest thing is to cc logs at supercheckpartial.com when you submit your Cabrillo formatted log to the sponsor's robot, but you can send them at any time you wish.

Randy's usage policies remain in effect. All files become property of WA1Z and will only be used for the purpose of creating the master call files. Blocked call requests can be submitted to the new email address as well. I have the existing blocked calls list, so only new requests are necessary.

For additional details, please refer to the web site:
http://www.supercheckpartial.com/

You Can expect the next SCP update to be announced sometime near September. If anyone has any questions, feel free to email me.

73, Bob Raymond, WA1Z
